## TO WHOM IT MAY CONCERN

CTP Stationery has utilised FORWARD ERP for the past 8 years and the purchasing of this system has been one of our better decisions. At the time of implementation a major concern of mine was one of disruption. This concern was unfounded as the implementation and training ran smoothly, and well within the time frame set. More importantly it was achieved with a minimal disruption and stress. Forward is extremely user friendly and our staff took to the new system without a problem.

We needed a system specifically tailored to meet our needs and the Meritec team were phenomenal in grasping these requirements and translating them into a programme that we are more than happy with. Their ongoing support, willingness and speed to customise to our changing needs has been excellent.

The functionality of Forward ERP has given us with the ability to keep tabs on our business at all times. On a personal level find the customised reporting to be its major strength. Meritec have always been there to provide backup at a moments notice.

Over the past 8 years the system is extremely stable and I have no hesitation in recommending both Forward and Meritec.

Sincerely

William Hart  
General Manager
