To Whom It May Concern

Forward ERP

Dean Swart Pen & Pencil is a leading company in the supply of stationery to educational institutions. We have been using Forward ERP for six years and has become an integrated part of the business that forms part of the success of our business.

The functionality and quality of Forward ERP is outstanding and ensures that the management of systems in the business is in place from receipt of orders, inventory management, picked, invoiced, delivered and payments reconciled. The system provides our business with the highest form of security in our ERP environment and therefore contributes to the organised and smooth operation of the business.

We found Meritec to be very professional and competent in their approach. Although the system requires very little on-going support it puts our company at ease to know that we can rely on Meritec for assistance at any time should the need occur.

Due to the growth of our company it is necessary from time to time to customise the system to meet our requirements. We always value Meritec's advice and input in these situations and accordingly the matter is handled with the utmost urgency, understanding and integrity to meet our expectations. When the positive outcome of changes and upgrades are measured in terms of money and quality, the exercise is completely cost effective.

Forward supported by Meritec is a "formidable team" and we would not hesitate to recommend it to any business that is looking to implement or upgrade their ERP environment.

Should you require any further information please do not hesitate to contact the writer.
